Points:
1/1

1. Collaboration requires that the team must take joint responsibility for their work. In order for this to effectively take place, what must the team members build?

- ☐ An information radiator
- ☐ A definition of done
- ☐ Continuous flow
- ☒ **Trust** ✓

Points:
1/1

2. Which of the following is NOT one of the five core risk areas common to all projects?

- ☒ **Strategic Alienation** ✓
- ☐ Intrinsic Schedule Flaw
- ☐ Scope Creep
- ☐ Specification Breakdown

Points:
1/1

3. What is Pair Programming?

- ☐ Two programmers write code separately. A third programmer integrates the work.
- ☒ **Two developers writing code together, providing constant peer review.** ✓
- ☐ A developer and a tester work together to write and test code.
- ☐ Managers doing performance reviews by comparing one programmer's code to another's.
- ☐ The Scrum Team is divided into several two-person Development Teams that consolidate work in a Scrum of Scrums.

Points:
1/1

4. The three pillars of empirical process control are:

- ☐ Planning, Demonstration, Retrospective
- ☐ Planning, Inspection, Adaptation
- ☐ Respect For People, Kaizen, Eliminating Waste
- ☒ **Inspection, Transparency, Adaptation** ✓
- ☐ Transparency, Eliminating Waste, Kaizen

Points:
1/1

5. When can the Product Backlog be updated?

- ☐ Only after a Sprint Review if agreed to by the stakeholders
- ☒ **At any time when done by the Product Owner or at the Product Owner's discretion** ✓
- ☐ Never, unless agreed to by the change request
- ☐ Only during Product Backlog refinement sessions if the Product Owner is present

Points:
1/1

6. How might a Scrum Master's responsibilities change once a team has some experience with Agile methodologies?

- ☐ The Scrum Master's responsibilities don't change over time.
- ☐ The Scrum Master should consistently enforce rules, policing the team.
- ☒ **As the Scrum Master coaches the team to adopt Agile practices, he or she will likely have less work to do once the team begins to self-organize** ✓
- ☐ Over time, Scrum Masters spend more time organizing the team.

Points:
1/1

7. What do we mean by a cross-functional Development Team?

- ☐ Each of the Development Team members should be cross-functional
- ☐ The Development Team consist of Developers and Testers
- ☐ The Development Team should collaborate with the other Development Teams
- ☒ **The Development Team should have all the skills necessary to deliver the Done Increment ✓**
- ☐ The developer should able to create test cases and execute them

Points:
1/1

8. Which of the following is not part of the Manifesto for Agile Software Development?

- ☒ **Teams and interactions over processes and tools ✓**
- ☐ Working software over comprehensive documentation
- ☐ Customer collaboration over contract negotiation
- ☐ Responding to change over following a plan

Points:
0.99/0.99

9. What activities are a part of Product Backlog Refinement?

Select all that apply.

- ☐ Creating the Definition of Done
- ☒ **Estimate the Product Backlog Items ✓**
- ☐ Creation of tasks
- ☒ **Brainstorming on the Product Backlog Items ✓**
- ☒ **The ordering of the Product Backlog Items ✓**

Points:
1/1

10. A person who makes decision and practices Scrum to the core is performing what role?

- ☐ Scrum Master
- ☐ Scrum Team
- ☒ **Pig ✓**
- ☐ Chicken
