1. When is a Sprint over?

Points:
1/1

- ☒ **When the time-box expires.** ✓
 - ☐ When all Product Backlog items meet their definition of done.
 - ☐ When the Product Owner says it is done.
 - ☐ When all the tasks are completed.
-

2. In agile development, lengthy documentation is created.

Points:
1/1

- ☐ True
 - ☒ **False** ✓
-

3. What is the unit of measurement that is used to measure the size of a user story for an Agile project?

Points:
1/1

- ☒ **Story points** ✓
 - ☐ Work breakdown points
 - ☐ Velocity
 - ☐ Function points
-

4. Which ones of the following main roles are defined by Scrum Framework?

Points:
1/1

- A) Scrum Tester
 - B) The Scrum Team
 - C) Scrum Manager
 - D) Scrum Master
 - E) Scrum Product Owner
- ☐ B,C,D,E
 - ☒ **B,D,E** ✓
 - ☐ A,B,C,D
 - ☐ A,B,D,E
 - ☐ A,B,C,D,E
-

5. Who is responsible for sprint meeting?

Points:
1/1

- ☐ Product owner
 - ☐ Scrum team
 - ☒ **Scrum master** ✓
 - ☐ All of the above
-

6. Which question is part of Daily Stand-up? Choose the best option.

Points:
1/1

- ☐ What was done yesterday?
 - ☐ What is your plan for today?
 - ☐ Is there any impediment or block that restricts you from completing your task?
 - ☒ **All** ✓
-

Points:
1/1

7. What are different ceremonies in Scrum?
Select all that apply.

- ☒ **Scrum retrospective** ✓
- ☒ **Scrum review** ✓
- ☒ **Scrum planning** ✓
- ☒ **Scrum or Daily stand up** ✓

Points:
1/1

8. Who should be the main judge of the business value?

- ☒ **The customer representative** ✓
- ☐ The project leader
- ☐ The facilitator
- ☐ All of the above

Points:
1/1

9. Only technical writers can create documentation during a Sprint.

- ☐ True
- ☒ **False** ✓

Points:
1/1

10. Which of these is the best example of an effective update to share at a stand up meeting?

- ☐ Yesterday I finished the deployment script. I have an obstacle because we don't have resources for the contractor to get started on her work.
- ☐ Today I'm going to improve the code for uploading data, and I have no obstacles.
- ☐ Yesterday I debugged an issue with time zone changes, and I worked with the UX specialist on the cart functionality.
- ☒ **Yesterday I finished writing unit tests for the new search control, and today I'm going to code it. I have a question about the interaction under certain conditions which I need to talk to the Product Owner about after the meeting.** ✓

Points:
0.99/0.99

11. Who is on the Scrum Team?
Select all that apply.

- ☒ **The Scrum Master** ✓
- ☒ **The Product Owner** ✓
- ☒ **The Development Team** ✓
- ☐ Project Manager
- ☐ None of these

Points:
1/1

12. What is the value of refactoring code?

- ☐ To have all code in a single file for easy printing and code reviews.
- ☐ To make the software faster at runtime.
- ☒ **To improve readability and maintainability.** ✓
- ☐ To keep the code moving.

Points:
1/1

13. When is Acceptance Testing performed in Agile development?

- ☐ On request of customer
- ☐ After system is ready
- ☐ Daily
- ☒ **At the end of each iteration** ✓

Points:
1/1

14. A team that focuses on delivering increments of functionality and removal of defects while making orderly process toward completing a release with potentially shippable functionality can best be described as?

- ☐ Iteration planning
- ☐ Value driven development
- ☐ Business case development
- ☒ **Incremental delivery** ✓

Points:
1/1

15. Which concept is NOT defined in the Scrum Framework?

- ☐ Scrum Master
- ☐ Daily Scrum
- ☐ Scrum Product Burndown
- ☒ **Project Manager** ✓
- ☐ Scrum Product Owner

Points:
1/1

- ☒ **Supportive** ✓
- ☐ Task focused
- ☐ Process oriented
- ☐ Disinterested

Points:
1/1

17. How do you implement action items captured in retrospective meeting?

- ☐ Add overhead items in the upcoming release.
- ☐ Utilize the project slack.
- ☒ **Update the Product backlog and prioritize in the next iteration planning meeting to implement in coming iteration.** ✓
- ☐ Add overhead items in the current release.

Points:
1/1

18. Where are the customer requirements stored?

- ☐ In a Scrum Product Requirement Specification
- ☐ In the Sprint Backlog
- ☐ Nowhere. The Scrum Product Owner knows them
- ☒ **In the Product Backlog** ✓
- ☐ In a database

Points:
1/1

19. What is the effect of having large visible project plan on a wall?

- ☐ It is useless, as it does not allow the team to innovate
- ☐ It is a fire risk and a health hazard
- ☐ It is dangerous, as management will misinterpret what the team is doing
- ☒ **It communicates progress to the team and other stakeholders** ✓

Points:
1/1

20. What is story point in scrum?

- ☐ Total number of hours required to implement a product backlog item or any other work.
- ☒ **A unit of measurement to estimate the total effort required to implement a product backlog item or any other work.** ✓
- ☐ A unit of measurement to estimate the total effort required to implement a Story. ✓
- ☐ Total number of sprints required to complete the MVP of the product.
